

CLAIMS

What is claimed is:

- 5 1. A group interaction method comprising the steps of:
 randomly selecting a plurality of indicia;
 requiring a first set of one or more persons to generate one or more texts
 containing words corresponding to the plurality of indicia; and
 having a second set of one or more other persons record one or more words
10 that one or more of the first set is likely to use in one or more of the texts.
2. The method of claim 1 additionally comprising the step of randomly selecting a scenario
 within which the one or more texts must fall.
- 15 3. The method of claim 2 wherein the step of randomly selecting a scenario comprises
 randomly selecting a scenario card from a plurality of scenario cards.
4. The method of claim 1 wherein the step of randomly selecting a plurality of indicia
 comprises employing a concentric-ring apparatus with a plurality of rings bearing indicia.
20
5. The method of claim 1 wherein the step of randomly selecting a plurality of indicia
 comprises employing a set of cards bearing indicia.
6. The method of claim 1 wherein the indicia comprise words.
25

7. The method of claim 1 wherein the having step comprises having a second set of one or more other persons record one or more words that one or more of the first set is likely to use in one or more of the texts, except that the one or more words may not contain any of a predetermined list of words.
